15	Site would not allow me to answer above questions 4-7. in order to have programs you need parking. 10-14 will not make it. Is a costly pavilion worth it? blocking the view. This site seems to be more of a pass through park- part of a walk and stop from scituate harbor to lighthouse. Why not simplify making it green space- well maintained and landscaped with seating. bathrooms could just be nicer porta potties that are removed in winter. Will need trash barrels. The view coming from Hatherly Road should not be a factor... more importantly is the view along Jericho - maybe one of the few roads you can actually see the harbor as you drive. Of course park should be dog friendly with water stations and poop bags but of course leashed dogs only. There should be parking that takes you right to the water. On any given day you will see numerous people stopping to look for 10 mn or so-m have their coffee or lunch and move along. The lighthouse area is always packed with people doing the same. A boardwalk with seating is great. Maybe even seating with a wooden awning like top or umbrellas. just like the gazebo in the harbor - a pavilion would be underused and trashed and truly serve little purpose. With no parking- events could not be held and people do not want to be shuttled in. Save the events for Cole parkway where homes would not be impacted and there is plenty of parking. This small plot of land should be beautiful and invite people to stop and look but it will never be a center of activity. If possible a small "pier" jutting out would be nice for fishing, viewing or simply steps to water to cool your feet. Scituate never maintained the grounds at Pier 44 and has a history of not maintaining and beautifying what they have. The less money invested here to develop the better. Use money to maintain a beautiful piece of our harbor coast	2/27/2023 10:54 AM

24	When considering pop up events are allowances for a food truck considered in addition to parking? Have you looked at the Brooklyn Basin project in Oakland Ca - it's a cool example of mixed active and passive recreation that allowed for multiple programs and multi generational use as well as community events - families could take their kids there to scoot while there was yoga class and community dance class.	2/23/2023 3:05 PM
25	I feel like using the park as an event space too often would ruin the point of it - to enjoy the harbor without having to sit in a parking lot.	2/23/2023 2:58 PM

39	Unless there will be refurbish/maintenance funds to keep the park clean leave the site as is. Do not allow dogs on the green since people will want to sit and enjoy the view. We don't need another unsightly park area with crabgrass, trash and a broken down bandstand (Cole Parkway).	2/22/2023 9:13 AM

Scituate and this truly is a waterfront town.

48	Seasonal festivals, like the summer concert series, the fall for Scituate, should all be moved out of the parking lots and into this nice space.	2/21/2023 2:10 PM

58	The site should have a 4 season option, a building should still be present and available for use, as it is now, Scituate rec uses it year round. Monday nights it's used and it's gets rented occasionally.	2/19/2023 4:07 AM
59	Visitor Center and maybe seasonal food like Ice Cream or Hot Dogs	2/18/2023 3:00 PM
60	Would be great to have space for food trucks, etc. What would be better than having a fresh lobster roll while gazing out over the ocean, in the fresh air?	2/18/2023 12:09 PM
61	Whatever landscaping you decide on, I would make it as maintenance free as possible. Maybe a lot of different grasses.	2/18/2023 11:46 AM

64	Any and All sounds amazing. Hopefully the gazebo will be removed and parking lot (signs, barriers, sandbags, cones) will be removed.	2/17/2023 3:40 PM
65	adironback chairs instead of lounge chairs. Take full advantage of the site to reflect the history of the area. A small sign with QR codes can link to the history of the lighthouse, ship building, barker tavern garrison, etrusco grounding. Simple to do at virtually no cost.	2/17/2023 10:55 AM

72	No	2/16/2023 3:15 PM
73	Restrooms	2/16/2023 3:05 PM
74	I think the programming should be kept to a bare minimum. This is a natural space along the water where people can get close to the water. Events will just crowd this very small space with commerce and people. Let's really have a park, with no parking. Parking can be figured out for another location.	2/16/2023 2:07 PM
75	a launch area for kayaks and plenty of parking	2/16/2023 2:03 PM
76	ice cream trucks/food trucks for public events with live music	2/16/2023 1:46 PM
77	Additional parking is needed. 10-14 spots is inadequate.	2/16/2023 1:23 PM

Scituate Pier 44 Harbor Park Community Questionnaire

78	Pleas make it wheel chair accessible and use as many environmentally friendly materials and protect the water and the wildlife. Hosting local artisans and vendors will support local economy and bring more people to Scituate. Host pet adoption events.	2/15/2023 6:30 PM
79	I think it could be important to consider drought resistant landscaping due to Scituate's water issues and climate change.	2/15/2023 3:33 PM
80	Just be some place peaceful to enjoy the scenery	2/15/2023 9:32 AM
81	Could be a place for food trucks to come every so often to offer some additional dining options at the harbor.	2/14/2023 8:40 PM
82	Pavilion extends as far as possible, in pier form, into harbor, making environment more immersive and acknowledging importance of pier structures historically.	2/14/2023 11:34 AM
83	small float for dingy, kayak/SUP/small boat access.	2/14/2023 9:51 AM

85	No	2/14/2023 8:51 AM
86	half parking lot. half open green space	2/14/2023 8:39 AM
87	Minimal development. Leave the space as close to natural as possible. This is a very windy, unforgiving part of town. Structures degrade quickly in the salt air. I'm concerned about debris & trash blowing from picnics & events.	2/14/2023 8:05 AM

150	I think if your parking spaces are so limited it will be difficult to attend programs so maybe programs could go to scituate harbor gazebo area as that area needs a serious facelift- larger space better parking but not a warm welcoming boardwalk where you could have pop up vendors and more programs. Parking lot is a disaster there. With that being said I do not think this new park is really not a place for events-and I do not think you should be "selling" this small location as such a spot. Just make it a spot to pass thru on a walk with bathrooms maybe but pretty. That would mean the town would have to keep it up which they never did at the pier 44	2/8/2023 9:29 AM
151	Struggling with some of the ideas given the ROI for town. Low lying, rising tides, water issues. I recommed the town leverage the space, gut and renovate beautifully for weddings.	2/8/2023 7:14 AM

153	This survey seems ridiculous since MANY of the ideas would require much more than 15 parking spaces!! How can you even ask about using this for musical events with that amount of parking? How can you ask about using the pavilion to escape the weather since it is not enclosed? If you have ever VISITED Scituate then you know that when we have "weather" and you are on the water an open pavilion is useless! It would keep the sun off a group but that would be about it! People park there now to go for walks. Where would you have those people park? Attend a community event?? A VERY small one! Sorry to be so negative but this proposal makes no sense!	2/7/2023 9:00 PM

Keep trash cans all over otherwise again it will be littered & ugly like Cole Parkway is. People leave trash all over on our waterfront. Maybe have good food trucks park on a designated day & time. Seating is very important for this to work as never enough seats. Maybe people can bring their own lawn chairs? And parking in Harbor always a major problem in the summer. An observation pier like the one at Cole Parkway would be my #1 Choice but it wasn't listed at all. It get people closer to the ocean & handicapped accessible too. 330	I feel the number of parking spaces is key. I'm concerned with too many vs not enough. The number of parking only spots in the Boat Ramp area should be taken into account. Those spaces are seldom filled. And it's hard to tell at the Boat club end of town lot how many are there vs what the Club uses.	2/6/2023 1:05 PM
331	This has got to be the stupidest idea ever. We don't need an OPEN park. We need a year round building, with restrooms, for functions/events with LOTS of parking and make an ares accessible for water view. I will NEVER utilize this stupid proposal.	2/6/2023 1:02 PM

375	I would hope the pavilion could be used year round regardless of weather. Perhaps being built largely out of glass with garage style doors on the sides for good weather, that could be pulled down in bad weather and winter. This idea obviously implies that it would be heated as well. I would also think it would be great to be able to get a bite to eat (casual) and a glass of beer or wine. This might take the form of a mini "Castle Island's Sully's, or on a lesser scale food trucks or pop ups.	2/6/2023 11:43 AM

394	bathrooms and garbage cans	2/6/2023 11:21 AM
395	I'm glad that you specifically mention bathrooms and this should not be underestimated or skimmed on in my opinion! It would encourage walking and biking if people wanted to go between the Harbor shops area and the lighthouse if they had a clean and friendly space with adequate bathroom facilities and this could take the burden off landmark areas around to compensate with similar facilities. Related to the above, it would be nice if there were one or more filtered (not brown) water filling stations/fountains to encourage people to carry their own reusable water bottles that could be filled at this park during walks/bike rides. Music events throughout the year and/or also becoming either THE or a second music venue for Heritage Days seems like a helpful idea. Consider allowing food / ice cream trucks to park there at certain times during the year - either on their own or perhaps in conjunction with some kind of farmer's or art market events? A 'station' that not only has a map of the town, but also has a 'commerce map' that highlights the various biz/merchants and restaurants around town? Consider running a town-run boat taxi service from this location? The current options (supply) are not always reliable or keeping up with the demand.	2/6/2023 11:20 AM

404	Integrate an arts and sculpture aspect, establish the permanent boardwalk prototype which can be used from sailing pavilion to the lighthouse, permanent lighting to accentuate illuminaria event, etc, have modern aspects to the park (where are we going versus where have we been). 312	more green space	2/6/2023 8:32 PM
313	The more parking the better. Scituate excludes access to water via restricted parking to too many homeowners. We pay taxes. We should have equal access to water (that includes beaches along the cliffs and egypt).	2/6/2023 8:23 PM
314	That the open space is not broken up by the Pavillion, which leaves more flexibility for the space. I also like more parking	2/6/2023 8:22 PM

Scituate Pier 44 Harbor Park Community Questionnaire

parking spaces just isn't enough to support a pavilion and congregation area. The lot should just be used as a beautiful natural place to sit peacefully and enjoy the view. The town already has the band stand in the harbor and parking within walking distance to this new proposed park.

393	More Parking Spaces and Placement of and pavilion. I would have preferred 3 but there were four less spaces	2/6/2023 2:53 PM
394	Parking is kept at far end next to existing parking, so least intrusive. Still don't see any Kayak storage.	2/6/2023 2:52 PM
395	Angled parking in concept 1 is much easier to drive in and out of. Even if there is no open parking spots remaining. The single entrance in the other two designs is going to be a bottleneck for attempting to get in and out and you may not be able to tell before you commit whether there a spot is open. - Good luck turning around to get back out.	2/6/2023 2:52 PM

11	I wouldn't want parking to dominate, but I fear that 10 or even 14 spaces may be too few.	2/27/2023 2:10 PM
12	it's hard to choose a preferred plan. #3 would look good if the permeable lot and pavilion were moved over toward the marina instead of being smack dab in the middle-taking up the view. Hard to imagine what a "boardwalk" is...I like the idea of a path running the length of the park-winding instead of straight...Just don't want the pavilion to be the focal point, at all. Nothing should obscure the view of the water...grass and water with benches and a few picnic tables all with shade (pretty trees). Not sure about permeable space and pavilion.	2/27/2023 1:08 PM

19	I think these are excellent, well-thought out plans. The biggest challenge is going to be the parking. Likely no amount of spaces will be sufficient, particularly in the probable instance that people will park there if neighboring locations (Satuit, boat launch) are full. Probably also a lot of people will park there and then go walk to the lighthouse or driftway. For example, the amount of parking at the dog park would probably be adequate just for the park, but people park there to use the driftway/harbor walk. Nothing really wrong with doing that, it just means that those spaces get filled up by people who might be leaving their cars for quite some time.	2/24/2023 11:25 AM
20	I worry about a parking lot too close to pavilion and little kids (big kids too) running into parking lot during performance/events	2/23/2023 3:17 PM
21	Parking needs to increase drastically. Learn from the mistakes made at the new senior center where parking is always an issue. You are proposing to use the new space for large scale events that will require more parking as there is no street parking surrounding the area. Be sure	2/23/2023 1:03 PM

handicap parking is truly accessible to the space, as well. The handicap space in the lower lot at Recreation Department is farthest away from the main entrance of the building at the bottom of the lot.

25	Looking good! Looks like plenty of shade (once trees grow). Look forward to seeing wild/native zones and flower garden elements. Thinking of how beautiful the Highline in NYC is and how it flows even in a narrow space.	2/23/2023 8:00 AM

28	The option to add outdoor showers would be great.	2/22/2023 10:13 PM
29	I would love to see a large central lawn oriented to the pavilion for events (relationship between the two areas) with smaller lawn and seating pockets. If the pavilion is rented for an event, it would be nice to have other publicly-accessible areas available so the park isn't shut down for private events. A large plaza area for community events would be beneficial too. The boardwalk with swings would be nice, but maintenance of the mechanical components of the swings will be critical with all the wind and salt spray in this area. I like some sort of boardwalk or observation deck platform that extends over the water at the southern end. I prefer less parking and oriented to be the least conspicuous. There's enough vehicular paved areas along that stretch of the harbor. Viewsheds are very important - both looking toward the inner harbor and to the Scituate Lighthouse at the mouth of the harbor. I think the restrooms need to be near the edge of the site. All three concepts place them parallel to the shoreline so when you drive into the parking area, your first view is the restrooms. If they are off to the side, they do not become a focal feature.	2/22/2023 9:23 PM

41	It would appear there should be an option to do nothing more than take down the existing building, plant grass and maintain existing parking lot.	2/21/2023 1:54 PM
42	I prefer concept 2 but think the parking should have 2 pts of entry/exit, and I like boardwalk along the water, not "observation nodes". Also I don't feel strongly about the siting of the pavilion on the observation deck. "Permeable plaza" should be explained - I don't know what that is. 88	As a Sand Hills resident with young children, traffic and speed continue to prove frustrating for our community. From Turner to Jericho, even the 30 mph speed limit's too fast, and I do not want this space to exacerbate this problem. Parking should be kept to a minimum, with any spaces provided constructed to facilitate a safe and efficient flow of traffic away from the Hatherly intersection. With families coming down Barker, Bay Ride and Damon to go to Museum Beach, it can be dangerous to cross over Jericho as drivers fail to yield to pedestrians given the lack of curb cutouts and cross-walks along that stretch.	2/13/2023 12:55 PM

127	Do not take the building down until it is no longer useful or financially feasible to keep up. Put grass and benches in the place where the building stands and leave the parking lot alone. Scituate does not have the money for all the upcoming projects and what money we do have should get the most bang for the buck. Building Cole Parkway in such a way that it helps prevent storm surge and rise in sea level is far more beneficial as it will help keep the harbor, the heart of Scituate, a thriving business area.	2/8/2023 2:13 PM

DON'T allow dog owners to trash the park w/dog poop & urine thatchy do on Cole Parkway- it smells in the summer & is a complete mess. Place many trash cans all over or will be as littered as Cole Parkway w/people's trash & cans there are always overflowing. I pick up this trash in the ocean all the time. mole/sunfish, cod, white sharks & all the marine creatures living off of our shores. Would have to be weatherproof & well-secured; art adds such a special touch to a park or a Town. Maybe have a circle pit with all kinds of beach stones on top of sand which is like a big lego building for adults & children to make rock zen towers. People build the free standing rock sculptures all the times on our beaches so this would be a fairly inexpensive really cool feature & gives kids/adults something physical to do in the park.

164	Great job, all beautiful. I prefer traditional bike racks to sculptural forms that become dated. I think lots of bike racks are a great idea. Ample amount of trash/recycling station to encourage use and tidiness. Water spot for dogs since so many walk dogs. Dog doo doo bags/disposal. Sunscreen dispenser. Solar charging. Filtered water to fill human water bottle filling? Or a pay drink dispenser/vending machine? Make this survey available ON THE PATH now. Put a sign out with QR code so all who utilize the walk can provide feedback! Mile markers? A subtle exercise circuit built into the hardscape? Special considerations for night time use - gatherings that happen to see stars/comets at lighthouse, for example. Do all designs accommodate that use? Also sunrise vigils - take place Easter and August 31 st Lighthouse - could/would churches use this location? What about funerals/memorials/burials at sea... ask clergy leaders! Will park "close" at night? Will bathrooms always be accessible? First Aid/Narcan/Emergency Telephone? Will skateboarding be permitted? Or biking IN the park? Will design elements make that difficult?	2/7/2023 9:13 AM

213	No swings-encourages playground behavior and will require too much space for safety reasons- NO dog pooping/peeing allowed- even with poop bags- Create a "dog walk" area far away from where people will use the lawn. I'm tired of seeing dog poop and dog poop bags all over town, especially around Cole Parkway and residential streets near town parks (elm park, the old common). The golf course gets over-run with dog poop bags and trash during the winter. I love dogs but I think there are too many these days and people act as if they belong everywhere. Make sure there are enough trash/recycling receptacles and that they are emptied. Maybe there should be a pack it in- pack it out policy. Very glad there are public restrooms. Hope they will be connected to town sewer. This is a great concept and will provide greater access to our beautiful harbor for residents as well as visitors, and a nice stopping point along the harbor on the way to the lighthouse. I do not think it should be rented for private events like weddings- this should be a public park. Fewer parking spots, the better- let's encourage walking and a walkable/bike-able town. The parking area should be permeable- maybe cobblestones-, except perhaps the handicapped spaces. What about a green roof for the pavilion and some kind of solar powered fountain- for cooling and drinking? I'm not sure why the water view from Hatherly Rd matters, except for the residents who live there. Thank you for the thoughtful and beautiful designs. 247	Nice set of designs! My concern is around the open lawn concept. This is a harsh environment and there have been droughts in SCI for a number of summers making an open lawn area will be very hard to maintain. On a different note - I don't think private events should be held here. No weddings, etc. The parking situation can't sustain it and Jericho Road is so busy in the summer months the traffic resulting from big events would make use of the area by the general public difficult and unpleasant.	2/6/2023 3:22 PM

However, I am an artist and might like to paint there--or perhaps small painting classes could be held there as it is so picturesque--but one would have to be guaranteed parking if art supplies are to be toted. 271	1. Why do you need a Pavilion? Because of the size of the site I would rather see open/people space. If you are going to have one why place it on the ocean side, it obstructs views. 2. For events you have the plaza spaces. Pavilion events will occur on a limited/part-time basis it is not an everyday occurrence, where use of the site is. 3. If you have inclement weather nobody will be there. 4. The pavilion looks to be about 30ft x 65ft. It will not be a cheap structure, because of location it will have to meet hurricane code requirements. 5. It will become another "maintenance item", landscaping and plaza require much less maintenance. 6. See also my comment in question 9.	2/6/2023 1:44 PM

277	Yes I would like to see a much easier survey to fill out with the 3; plans listed with contents in each and the differences between the models. The concept of a town park is a wonderful idea to include all that want to spend time near the ocean. It seems as if not all will be able to enjoy as parking will be a problem, It seems person should be available for busy time, time limits would be a must. Also will there be a fee, or a sticker needed. Will the park be closed at times for special events? Also handicap use of the park should be addressed. Thank-you for all your time and effort in trying to bring a town park to Scituate.	2/6/2023 1:18 PM

	Incorporate natural looking water stations. How about a open shower/feet rinse off area?	
285	This has got to be the stupidest idea ever. We don't need an OPEN park. We need a year round building, with restrooms, for functions/events with LOTS of parking and make an ares accessible for water view. I will NEVER utilize this stupid proposal.	2/6/2023 1:03 PM
286	Full views of the water should be the main goal	2/6/2023 1:03 PM
287	No	2/6/2023 12:58 PM
288	Swings near the water for kids	2/6/2023 12:51 PM
289	As much open space as possible	2/6/2023 12:50 PM
290	Less parking = more opportunity for usage. Overflow parking at the public landing and the fact that many can walk (or park at a friend's house) requires less parking. That space has a beautiful view, don't waste parking on it.	2/6/2023 12:48 PM
291	Ideally bathrooms are upscale, and set apart so not used by the lot w/boater parking and the porta potty.	2/6/2023 12:48 PM
292	Concept 1 also was an excellent option. Concept 2's additional cost isn't necessary given the other two options.	2/6/2023 12:44 PM
293	Great to see the bathrooms. It would be great to have clean public bathrooms in other locations (not porta potty). Dog Park, Lighthouse, Fish Pier, Train station.....	2/6/2023 12:40 PM
294	Use native plants extensively...	2/6/2023 12:39 PM
295	I like them all and this is where I trust the designers to pick the best option for the space. I don't have the eye to know.	2/6/2023 12:33 PM
296	Maximizing simple green space is most important to me. I would be disappointed to see the site dominated by hardscape, which is vulnerable to destruction by flooding and expensive to repair and maintain. There is very little open green space in the neighborhood and none that abuts the coast. While I like the idea of a pavilion for events or shade structure, I think simple green space with trees for shade would be appealing, flexible, and sustainable.	2/6/2023 12:33 PM
297	Concept 1, angles the pavillion away from the Lighthouse view, still pretty, but I think a mistake. I don't think large bleachers facing the water in #1 wouldn't be used very well in that location. I don't think they are accessible for all, especially the older and disabled. A less prominent loaction is more inviting for all. Thank you for your work on this. My family owned the site when it was the Yardarm in the 60's and I am thrilled it will be used for this reason. Keeping the parking away from the Marina parking may help natually keep the community parking for all. The same with the restrooms. All people can use the facilities, but the placement can naturally lend to deterring the boaters from taking over. In Asia many parks have exercise areas with basic pieces of equipment. https://www.bbc.com/worklife/article/20191028-the-cities-designing-playgrounds-for-the-elderly A stone or other chess board or other game under the pavilion could be very popular. They are well used in Boston in the Fens.	2/6/2023 12:31 PM

299	no	2/6/2023 12:26 PM
300	I like the idea of hiding the parking lot from line of sights within the park. Use of vegetation to screen the parking	2/6/2023 12:26 PM
301	the line of trees outside the street side walk is unnecessary - more of a block than an invitation in - its not a long walk - people will either be walking into the space or going by it - unlikely to be lingering in the shade there - Hopefully only native plants will be used.	2/6/2023 12:25 PM
302	if space is going to be used there must be enough parking	2/6/2023 12:20 PM
303	Give it up	2/6/2023 12:17 PM
304	It probably would be great to have a small area for dog owners. Not a dog park but if it's shared open lawn for dogs and family picnics it could assure better safety and cleanliness.	2/6/2023 12:16 PM

316	Make it natural as possible	2/6/2023 11:43 AM
317	I think space for events is good. We'll never have a regularly-scheduled successful farmer's market or other economic event there, it's too far from transportation. Plan for community things that want view, A/V power, and internet.	2/6/2023 11:42 AM

323	Love these ideas! Great job	2/6/2023 11:33 AM
324	Again, if the drawing is just showing two porta-potties that seems inadequate. Consider increasing the bathroom capacity so that events can be enjoyed if the number of attendees reaches park capacity. For the bike rack, focus on the capacity for as many bikes as possible over the artistic quality of the structure itself (function over art in this case even though I love creative bike racks)	2/6/2023 11:33 AM
325	Restrooms	2/6/2023 11:30 AM
326	I would like to see what the proposed plan looks like from the water - I think you are trying to put 10lbs of flour in a 5lb sack. I walk by there often and it is not as spacious as it appears in the drawings- they also look like it is designed for the midwest. You should embrace the coastal fishing village charm.	2/6/2023 11:30 AM
327	Water-access/over-water is key	2/6/2023 11:29 AM

329	use is going to depend a lot on availability of parking, especially those with small children. design should allow for easy access to events (music, food pop ups, art festivals, etc) for highest use of space.	2/6/2023 11:28 AM

368	Keep parking together with the town marina so that it opens up the site and maximizes the views. The parking lot should not be parallel to Jericho. By having the parking along Jericho doesn't make a nice walk view from the harbor to the lighthouse.	2/6/2023 10:44 AM
369	Take a look at South Boston causeway to Castle Island. Provide an open view, plenty of parking, continuous walking, benches and trash barrels. 379	An important note. The way the waterfront has a small bay shape to it has become important to waterfowl in the area and those migrating through. We need to preserve the natural asset that this presents. When the library was there temporarily, adults and kids always gathered at the windows to spot all the kinds of birds in the inlet area. It is a great bird watching spot that has even been a place to see eagles.	2/6/2023 10:40 AM

403	Not enough parking. Which means the people who live in walking distance will be able to take advantage of the site far more easily than those who need to reach it by car. The site should be accessible for all residents of our town, not just those who already live within walking distance of the water. Out of towners should NOT be allowed (maybe beach sticker should be required?) because the parking will already be at a premium.	2/5/2023 7:26 PM

Hingham Bathing Beach hill area is a good example of a community space well used and loved. #	RESPONSES	DATE
1	Traditional look	3/1/2023 6:30 AM
2	Seems less likely to be full of bird poop	2/28/2023 9:17 PM
3	it's seems to offer the most space and the best shelter	2/28/2023 8:43 PM
4	Has a more natural feel	2/28/2023 7:34 PM
5	It leaves room for everything else I don't think we should add the pavilion until years later	2/28/2023 6:20 PM
6	I like the orientation of the pavilion. It was unclear to me whether it was possible to express preference for a mixture of the 3 types of pavilions. My preference is for a centrally pavilion centrally located on a boardwalk with diffused light as described in #3 but the overall shape and gables of #1	2/28/2023 5:03 PM
7	More modern look and feel	2/28/2023 4:01 PM
8	Architecture is more reflective of Scituate as a town with a colonial history, blends in better with architecture of the town's homes & many of its commercial buildings.	2/28/2023 3:10 PM
9	Along the water	2/28/2023 11:32 AM

14	Look of the wave	2/27/2023 6:50 PM
15	the wave pavilion roof line is suggestive of the Sydney Australia concert hall which appears to work very well with the nearby water. For any design how to we keep the structure from being a magnet for seagulls and their excrement?	2/27/2023 4:13 PM
16	Has some character - not just squares or gables	2/27/2023 2:14 PM
17	More organic and in keeping with the ocean surface.	2/27/2023 1:15 PM
18	not liking it. imagining it will turn out like our town hall or jenkins or idk. Don't want a monstrosity that will be "trendy". If people insist on having a pavilion, please, please, let it look classy, timeless and nautical...NOT TRENDY ARTISTIC.	2/27/2023 1:13 PM
19	Most fitting with New England	2/27/2023 12:17 PM

47	Softer roof line	2/22/2023 10:59 PM

61	This survey traps one into a building. No building should be an option.	2/21/2023 2:00 PM
62	It's the most straightforward. I don't even think the site needs a pavilion but I prefer #2 but a smaller version of #2. It seems too big for the site. I don't like the wave or the gables	2/21/2023 1:54 PM

69	Shape	2/20/2023 9:26 AM
70	The natural style of the roof framing in Concept 1 is a nice reflection of the water. Although I think the position of pavilion near the water in Concept 2 is nicer, it's boxy appearance is unappealing.	2/19/2023 5:34 PM
71	I don't know what concept1 is constructed from so can't choose	2/19/2023 9:40 AM
72	Flowing ... looks more friendly ... less "industrial"	2/19/2023 7:36 AM

87	Ocean like	2/16/2023 2:56 PM
88	the movement in the structure	2/16/2023 2:13 PM
89	It has a pitched roof. Flat roofs should not be allowed in New England.	2/16/2023 2:11 PM
90	New England cottage styling and angles to shed ice and snow should help lessen wear and tear.	2/16/2023 1:58 PM

180	It looks more in keeping with the towns historic feel	2/8/2023 12:05 PM
181	To start- why a pavilion that will block the view? And will never be maintained by the town- it will have graffiti trash and kids hanging out. It seems a lot of money for no real gain. A pavilion if needed- should be small and out of the way- closest to harbor side of the lot. People pull in and park to look at the harbor from their cars- there is no place to do that in all your designs . Better for people to use their car as a pavilion than putting one there. After all it is all about the view not the usage as it is a small parcel of land. Beautify it but stop overthinking it's usage and simplify	2/8/2023 10:34 AM

216	I like that the main design concept is revealed once the user has engaged with the pavilion. That said, the exterior expression doesn't have as much of a streetscape impact or presence as the Wave. Perhaps there is a middle ground between the two.	2/7/2023 10:24 AM
217	Simple	2/7/2023 10:22 AM
218	This appears to have the most openings allowing unobstructed views from all sides.	2/7/2023 10:17 AM

284	I'm torn between the wave and the gable. I feel like the gable will stand the test of time from a quality design perspective. The wave structure is cool, but will a storm rip the roof off? The reflected pier looks dated and it abuts the parking lot. Not a good look.	2/6/2023 7:46 PM

347	No pavilion needed. A pavilion will just be a place for kids to hang out and skateboard. A pavilion will be something else that the town needs to maintain. With the historical flooding that happens in this area, a very simple plan should be brought forth with a beautiful park to sit and relax.	2/6/2023 3:05 PM
348	The curve of the structure, aerial view.	2/6/2023 3:03 PM
349	Concept 1 looks most interesting from outside the structure (the image most people will see most of the time). Concept 2 looks interesting only from inside the structure (I am sure planners have thought of the weight of the snow pack on the flat roof?) 409	I don't like any of the proposed pavilion structures. They seem very big, and appear to obstruct rather than frame or accentuate views. I think something small that serves as a shade or partial shade structure would suffice.	2/6/2023 12:46 PM
410	I think it the Gable style will last longer, the snow and rain will slide off, and it seems to be stronger. I prefer the classic design in keeping with the history of the town and keeping the historical view of the lighthouse, pier, and the proximity to the Bates home.	2/6/2023 12:45 PM

498	I like the open space beyond the roof- looks like that is ONLY possible with this version. Also, just feels like it is less likely to be damaged by high winds. The curvy one looks like it will blow apart and the third just looks boring	2/6/2023 10:59 AM

507	I like how unique the shape of concept 1 is, making it a site to be seen rather than an object for shelter. However I love concept 2 for its ability to allow natural light to come in. Really, it's a toss up between concepts 1 and 2.	2/6/2023 10:52 AM

Scituate Pier 44 Harbor Park Community Questionnaire

514	The Wave concept I don't believe would be constructed right and may not look like the anticipated design, these type of designs have many angles and the perspective changes as you move around the structure. I like the Reflected concept because it still uses curves underneath and it has a simple structure. The pavilion structure will take on weather and replacing a simple structure is better for the long run.	2/6/2023 10:49 AM
515	I think the traditional Harborside Gable would look great and its roof shape would work best with possible heavy snow loads in the winter time.	2/6/2023 10:49 AM

1	No	2/28/2023 9:17 PM
2	Although I more or less like design two best, I really think that someone could come up with something more attractive than any of them while offering the coverage that design two seems to do	2/28/2023 8:43 PM
3	Be incremental no mad rush to a 100% overblown design that no matter what design will not be based on the town's willingness to be accepting of it, let time work in the design's favor.:)	2/28/2023 6:20 PM
4	no	2/28/2023 5:03 PM
5	The pavilion should have lighting in the rafters, so it can be used in the evening by the public, but not as an attractive drinking place for teens. It should well accommodate a set up of booths, etc. for community groups & services. It should also be well situated for musical groups and other entities presenting to people either within the pavilion or seated on the lawn. To that end, it should have high ampage electrical outlets, but well out of the reach of the public (locked in some fashion.)	2/28/2023 3:10 PM
6	There should be a ranking of what uses we want for the pavilion so the design can be accommodating to the preferred uses. I'm concerned that a generic pavilion will be equally ineffective for all uses.	2/27/2023 4:13 PM
7	Less is more. Do not "design" it. Low key coastal and timeless if you must have one. The maritime center came out good.	2/27/2023 1:13 PM
8	Any way of incorporating additional parking would be helpful.	2/27/2023 12:11 PM

13	All 3 look amazing - no strong preference. Love the curves of 1 & 3. Don't think there's a wrong choice here. Concept 2 would probably work well no matter where you seat the pavilion. The other concepts, particularly 1, look amazing where they are placed, but would probably be less effective if placed in the middle.	2/24/2023 11:31 AM
14	Seems like too many trees. If there's flexible seating the trees will dictate where they go	2/24/2023 8:49 AM
15	The wave shape is cool, but its a little too literal. What about Scituate's relationship to the fishing industry?	2/23/2023 3:07 PM
16	can you add solar panels for the Town to collect energy?	2/23/2023 1:06 PM
17	Whatever you choose, some people will complain. Whatever choice, or a combination of the 3, this is going to be a great addition to the harbor that my family will enjoy. Thanks for creating more green space!	2/23/2023 11:41 AM

23	any path to launch a kayak	2/23/2023 12:13 AM
24	Use New England based material. Granite, wood minimize plastics.	2/22/2023 10:20 PM
25	I think the rooflines in all 3 options tend to draw the eye down, when the rooflines should be opening up to the view. The eave heights feel low to the ground and somewhat cavernous. A gullwing style would extend the roofline at the edges upward and would allow the architectural features of the roof underside to be visible and appreciated from a distance. I don't think a translucent fiberglass roof (Concept 2) will hold up well in our environment. To bring in light, you might consider a clerestory or shed dormer feature to achieve that effect. Lastly, the final material selections and design should consider the character and architecture of the harbor which are generally more traditional.	2/22/2023 9:38 PM
26	No	2/22/2023 9:02 PM

With all the email communications and you tube videos, I have never experienced such a wonderfully strong, communications oriented, and professionally oriented town. Sincerely, I own properties in others towns and Scituate hands down you/this team know what you're doing and have the true understanding of how to effectively bring the community along with you. 100	It needs to be constructed with weather in mind. It must be able to LAST without constant maintenance especially in winter and during heavy storms.	2/8/2023 12:05 PM
101	To start how much usage does the gazebo in the harbor get? Sone musicians in the summer. Why do you see this parcel as a gathering spot ? It's too small and the cost of working with flooding seems non beneficial to our pocketbooks. Pier 44 building was never maintained and was underused- why? Because you couldn't rent it out and make money and too Little parking. The grounds were always an eyesore with weeds sprouting up and areas of no landscaping. Place always looked neglected. So yes tear it down I suppose but what a shame it was not put to better use. Now we have that cost to absorb... once the building is gone the view will improve. Why try to fit a pavilion that needs upkeep and interferes with the view? The space is small and it should be simple natural yet maintained. A short boardwalk yes with a few benches- even an extended " dock" area. It needs to allow for people to drive up and look out to the outer harbor and move on. The only other place is the lighthouse which is always full. The boat launch area is full in the nice weather otherwise people stop there as well- drive by and u will see people in and out all day long. I know as I walk by there and have done so for years. I am also a person who has lived here all my life and would like to continue to be able to see the coast. We have limited areas where we can see our beautiful harbor and coast. Glouster ma is a great example of a boardwalk along the water. It functions for walkers- for views and simply has benches and lots of flower beds and an occasional sculpture . Such a pleasant walk. Parking , walking and beautification of this space is all that is needed. It is not conducive for events. If you can't park- who will go? Shuttles are not an answer . Just let the view be available to all that pass by in car or on foot. Let them stop and take it in and be on their way. As I said you have a better event area in Cole parkway but the bizarre parking lot and traffic pattern need attention.parking spaces are adequate there and an area that draws people anyways so why not build that area up for pop up vendors and Events? The money that you propose to invest in pier 44 area could be put to better use elsewhere and be more	2/8/2023 10:34 AM

The ocean and beach should be the star of the show here and the park amenities should lean into the nature surrounding it and minimize the amount of structures built on it. Try to keep sight lines of the ocean and invite folks to enjoy the water. 222	Any structure, whether pavilion or solid structure, is at risk of flooding or collapse at this site. Introducing hardscape into this vulnerable area doesn't seem to account for predicted rising sea levels. We already know what happens to seawalls, which are specifically designed to withstand flooding and surges -- they don't work and actually worsen the problems of coastal erosion over time. And they are a never ending expense. Why do we think hardscaping on this coastal parcel will be any different? Visually, the pavilion designs look as if they will obstruct rather than enhance views. Whatever public gatherings are planned for the space could take place without a pavilion as proposed here.	2/6/2023 12:46 PM

258	I like the overlook jutting out over the water, that design element seems coupled with only certain other design elements. I am not sure why this can't be part of an overall design. It would also be nice (and great for business), if this area could be connected with the harbor via a walkway or boardwalk that goes directly over (at least in the summer months) rather than the street walk that is too narrow. We walked a nice over-water boardwalk in Halifax and it connected restaurants and other city spaces nicely. If you went over the water, it is a short distance to the Mill Wharf area. Just a thought.	2/6/2023 10:59 AM
