

Agenda

Town of Scituate, Massachusetts
Tuesday, October 22 @ 6:30 PM
Gates Middle School (Dining Commons)

Master Plan Community Workshop #2

The Planning Board, Planning and Development Department, and Master Plan Advisory Committee invite you to participate in the development of the Town's Master Plan. Once completed, the Master Plan will serve as the long-term guidance document and shared vision for responsible growth and preservation within the Town.

As part of the Master Plan update process, we will be holding a series of community workshops to receive public input on the development of the plan. In this public workshop, participants will be discussing what resiliency means for Scituate and how the impacts of climate change, measures of community and economic health, and availability of municipal resources will affect decisions about priorities for the future.
