B. Schmid motioned to approve meeting minutes from March 22nd, 2016. P. Elsmore second the motion.

Third Cliff Rivermoor Association members Alec and Frank advocated concerns about the Spit. Concerns included unleashed dogs, excessive and underage drinking, and the threats this poses to the environment and the community. K. Bates of the Scituate Police Department shared procedures in place to minimize the issue involving the Coast Guard, Scituate Police Department, and Marshfield Police Department.

K.Bates noted that since the purchase of the Police boat last year and the appointing of Officer McCally as head of Marine Patrol this year that situation on the Spit should continue to improve. The recent hire of nine permanent intermittent officers should help manage the area more effectively as well.

J. Keefe discussed the details and demands of the Board of Health's responsibilities regarding water testing, beach closing, seaweed removal, and deceased marine animals.

SBC discussed liaison connections and updates.

Meeting motioned to adjourn at 9:58 p.m. by P. Elsmore and second by N. Fay.
