

Scituate Police Department Operation Dry Water ~ 2021

“Operation Dry Water” coincides with the holiday weekend this year (July 2nd, 3th and 4th). This is a nationwide outreach and enforcement campaign with the goal of raising awareness of the dangers of Boating Under the Influence (BUI). The campaign delivers heightened enforcement of BUI laws through the efforts of local, state and federal law enforcement agencies. Together with our partners on the water, we will be working to increase boater safety throughout our area of responsibility.

Alcohol use is the leading contributing factor in recreational boater deaths, and a leading factor in recreational boating accidents. Over the course of the three day weekend, law enforcement officers will be on the water educating the boating public on the dangers associated with boating under the influence. Officers will also be on heightened alert for those in violation of boating under the influence laws and removing dangerous boaters from the waterways.
