Summarize how this request benefits the Town of Scituate and meets the goals of the Community Preservation Act.

In the Harbor/Jenkins district, this is the only playground / recreational space available. A new playground at this location will be safer,

ADA compliant and appeal to a wide range of ages and competencies. Where the current structure is located has proven to be

detrimental and moving it to a more visible area will promote public safety and discourage misuse of the space. Community playgrounds, such as this one

provide children the opportunity to practice and hone key social, emotional, cognitive and physical skills. This play area is used by so many different children and families and upgrading the space would result in many favorable benefits to the surrounding community.
