June 6, 2019

Dear Mr. Rosenquist,

Thank for your excellent presentation to the Scituate Historical Society trustees at their monthly meeting tonight. The information that you provided gave the trustees an excellent background on the history of the mile markers.

Following your presentation tonight the trustees voted unanimously to support your application to fund the restoration of the three mile markers located in Scituate with Community Preservation funds. They believe these markers are a very important part of our town's history and need to be restored. Please feel free to submit this letter to the Scituate Community Preservation Committee as part of your application to them.

Sincerely,

David Ball, President Scituate Historical Society
