

# TOWN OF SCITUATE

## Plan for the Scituate of the future!

Please join us for the final community workshop for the master plan! We're moving the conversation online, and we'll be discussing **Managing Change**. Scituate is facing changes now and in the future – how do we manage the impacts from demographic shifts, climate change and sea level rise, economic cycles, and other challenges while building a community that is physically and socially healthy and resilient? How do we protect our environment while allowing for choices in where and how we live and work? **Join us on October 13 to discuss these questions and the tools and trade-offs needed to manage change within the community.**
