to make road nearly level, and all a hard road, and one which will avoid old sand hills road - the S sand Object, besides saving 25 rods in distance. Since Committee believes public will not continue to travel old road satisfied without chains it is best to make a new road.

Vol. C-9 Page 94-96 Date Mar. 1, 1828

Meeting: Town Selectmen Other

Description [continued from card # 2]

The other route, from John James' to D - Stockbridge's house, would be almost a road (with exception of one hill, which can be leveled at small expence) after land is fenced and laid out. As this road has some connection with the other 2 old roads could be discontinued if both were built.

Description [continued from # 3 card]

First road is of most public importance, it being the main road to the Harbor, and used by a great many from this and other Towns: while second will accommodate so large a portion of travel it ought to be laid out. Under a late law of State it will become duty of County Commissioners to lay out
