The purpose of this bylaw is to protect, preserve and maintain the public health, safety, welfare and the environment whenever there is in force a "State of Water Supply Conservation" or a "State of Water Supply Emergency" by ensuring an adequate supply of water for drinking and fire protection and to protect the quality and quantity of water in local aquatic habitats such as ponds, rivers and wetlands. This purpose will be accomplished by providing for the imposition and enforcement of any duly implemented restrictions, requirements, provisions or conditions on water use imposed by the Town in accordance with this bylaw and/or by the Department of Environmental Protection under its state law authorities.

Section 3: Applicability

All Town persons who are customers of the public water supply system shall be subject to this bylaw. This bylaw shall be in effect year round.
