Water System Updates

Water Department update – Becky read Mark Cloud's email

Reservoir is +2", Tack Factory Pond is +2.0".

Rainfall in the last 7 days = .99" as measured at the TP.

Demand for the past 7 days:

Wells – 7,340,000 Gallons

TP – 0 Gallons

Total = 7,340,000 Gallons or 1,048,571 Average gallons per day.

- Surprised to see that the WTP is not running at all, Becky to follow-up

Celco is working on water services for Foxwell Lane, they will be finished before Christmas.

Becky reported that there will be a Reservoir meeting this Wednesday to finalize assumptions for modeling

Brown Water update

From Mark's email - Planning to do flushing this week on Old Oaken Bucket Road and Walnut Hill subdivision. – Becky to followup to see what's going on at this location

WTP update

Kevin asked Tighe & Bond to provide a monthly update to the WRC during construction, permitting and design.

BMP's for municipal buildings

Tabled for next meeting, Joanne not at the meeting

Rainwater capture for municipal fields

Becky spoke to Andrew. Suggested that they work with town departments to submit proposals based on their knowledge and resources.

Planning for 2023

- Review list Water Conservation Plan – tabled for a future meeting
- New Chair: Bruce Arbonies was nominated and accepted the role. Becky to step down in February
- New Vice Chair: To be determined once Bruce decides how he wants to restructure the WRC

Liaison updates

Planning Board – Becky

- Review Laurelwood Drive applications – Stormwater Permit
- 334 CJC Hwy – Form A Application – Splitting 1 lot into 3, existing house and garage on 1, proposing 1 new building on 2 and another on 3
 - o Form A / ANR Application – Approval Not Required, can divide the lot of land without going through Subdivision Rules because all of the frontage, etc meets the minimums

Con Comm – Joanne – not in attendance

EDC – Freya - none

Zoning – Bruce – no update

BOH – Jackie – no update

School Committee – Emily – no update
